Portland, CT 06480

RE: Dolphin Days Non-Transient, Non-Community Public Water System

Dear Mr. Magnotta:

It is the policy of the Town of Durham Water Commission to operate but not accept ownership of non-transient, non-community public water supply systems. The Commission will agree to operate the subject system contingent upon it being constructed in accordance with State of Connecticut Department of Public Health requirements and conditions, as well as those terms and conditions to be set forth by the Commission.

Yours truly,

James W. McLaughlin  
First Selectman
